

ANSWER TO NOTICE OF INTENT TO RECALL

By: Mayor F. Richard (Dick) Jones, MD

I am a retired doctor who spent my entire career helping people – as a surgeon in the Air Force and in private practice.

In 1977 we moved to Fullerton with our children, and started my medical practice.

I was honored to be a Chamber of Commerce “Man of the Year.”

The proposed recall is an attempt to undo the recent election results.

I am saddened by the harsh rhetoric from those willing to destroy our city in the pursuit of money and power.

Recall proponents are using the tragic death of a homeless man to advance their agenda of fear and intimidation.

This recall is led by Tony Bushala – a millionaire developer who has profited handsomely from projects in Fullerton’s redevelopment area.

Bushala needs a majority on the city council for future projects to he is seeking. He has spent tens of thousands of dollars to buy elections and bullying our family-friendly community.

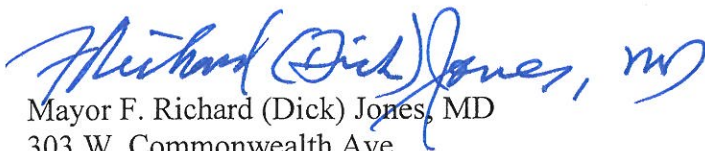

This recall is his latest attempt to fleece Fullerton’s taxpayers.

I am proud of our city and all the hard working employees.

I have the support of Fullerton’s public safety employees.

Vote NO on the recall. Stop the developer’s recall power play.
