

ANSWER TO NOTICE OF INTENT TO RECALL

By: Councilman Pat McKinley

I have dedicated my entire career to public safety.

I spent sixteen years as Fullerton's Chief-of-Police, retiring in May 2009. Prior to Fullerton I served for twenty nine years at LAPD.

Fullerton has been our home for nearly twenty years.

Fullerton is one of the safest cities in America for a good reason – I worked to instill community responsive policing.

The proposed recall is an attempt to undo the election results of last November.

Recall proponents are using the tragic death of a homeless man to advance their agenda of fear and intimidation in our peaceful town.

This proposed recall is led by Tony Bushala – a millionaire developer who has profited handsomely from projects in Fullerton's redevelopment area.

Bushala needs a majority on the city council for future redevelopment projects to line his pocket. He has spent tens of thousands of dollars trying to buy elections and bullying our family-friendly community.

This recall is his latest attempt to fleece Fullerton's taxpayers.

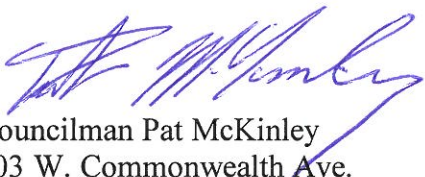

I am proud of our city.

For 124 years the Fullerton Police Department has made our city safe.

I am proud to have their support.

Vote NO on the recall. Stop the developer's recall power play.
